

Ways To Bless

1. Pray. This might be the single best thing you can do. Pray not only for our local neighbors, but for all of our neighbors abroad that are dealing with these same things.
2. Stay home! Let's follow the rules – even when they are hard!
3. Encourage one of your elderly friends/neighbors! Send a note, make a call, offer to shop for groceries online. If you have a heart to do this, but don't have a particular person in mind, please email: care@cherryhillfamily.org, and we will get you connected.
4. Use snail mail! Is there someone in your life that could use a little encouragement? Send a note their way! This goes for the kids as well! Kids – is there someone in your class that could use a homemade picture, Bible verse, or hand-written note?
5. Encourage a healthcare worker that you know! Send a text, write a note, send a giftcard for takeout. They are on the front lines of this pandemic. Let's love them well.
6. Support local business – purchase gift cards for future use, shop locally online, take time to rate the business you love with 5 stars, like and share posts on social media
7. Meet your neighbors via letter or note! A simple card, placed on the porch or in the mailbox could go a long way. Simply introduce yourself, and offer your contact info and availability to help.
8. Fight isolation around you. Look for people around you that are alone, or may be experiencing mental illness. Attempt to connect, to offer laughter, or a listening ear. Jesus was present. Let's look for creative ways to be present.
9. Please check in with our local ministry partners. You can find that list here on our website: <https://cherryhillfamily.org/missions/local>. Many of them have practical needs that need to be met. They would love to hear from you, and would love your prayers.
