

Practice of Scripture

Overview

The Bible is the inspired word of God. It is tested and true, and there for the taking. The question is will you take the challenge of reading it? The words of the Bible are our very source of life and truth and promise, as a believer. Every minute you spend reading and digesting the words of scripture will never return void. As you hide God's word in your heart you are nurturing the only true eternal relationship you will ever have! A.W. Tozer famously said, "What comes into our minds when we think about God is the most important thing about us." The Bible is where we get these answers.
